WELCOME TO OUR FAMILY

Our team believes in design affordable for everyone.
We work with determination, convinced to offer
well-being and comfort to everybody.

Nuestro equipo cree en el diseño al alcance de todos.
Trabajamos con determinación, convencidos de
ofrecer bienestar y confort para todos.

Hook

“Hook is independent and requires no installation. It is a portable lamp with a hook to be placed wherever you like. 100% Made in Spain.”

— Oiko Design Office

DESIGNED BY OIKO DESIGN OFFICE

What was your inspiration for creating Hook?

We had always been interested in the idea of the “working lamp”, used by workers in workshops, construction, etc. A product that had already been discussed by Bruno Munari in the 1960s as an example of fine anonymous design. We wanted to adapt its dimensions to the size of the hand, to the idea of a torch, to contact, etc. We wanted a lamp that invited people to interact with it, to relate to it, to pick it up and take it from here to there; a lamp that, without being a battery lamp, would be completely portable.

It is a lamp with a hook... In what sense?

First, in the obvious sense, it features a hook... does it not? It all started with the briefing in which we were asked for “a lamp with a hook”, obviously referring to a commercial hook, something that would hook people, a metaphorical hook. Therefore, almost as a joke, during that first meeting we decided it would be called Hook and its design would revolve around an actual hook, that the lamp could be hung.

A lamp should seduce you. Do you think Hook is capable of achieving that?

The truth is we want Hook to be understood

Ecological Solidarity

and work properly. Not to be hopeless romantics but although seduction and falling in love is fun, we all know it ends at some point. More that seducing, we would like it to generate a feeling of affinity and kind of a friendship.

What differentiates Hook from the rest of the lamps in the market?

We could mention its multi-functionality, its versatility, etc., but what really differentiates it is that it is one of the first lamps built without PVC. It does not contain PVC in its wiring or even in its internal components.

Its casing, the most visible part, is made from recycled plastics, without fear of its imperfections. In addition, it is a product manufactured entirely in Spain. All of this is a silent story that accompanies the product during its lifecycle.

Hook is ecological, it's manufactured with recycled plastic and toxic-free materials were used in its manufacture. Moreover, it is a design that helps others. Each light fixture sold will feed one child for an entire school year thanks to a collaboration with the NGO Mary's Meals.

DISEÑADO POR OIKO DESIGN OFFICE

¿Cuál fue vuestra inspiración para crear Hook? De dónde surgió la idea?

Siempre nos había entusiasmado el producto de la working lamp que utilizan los obreros para trabajos de taller, construcción etc. Es un producto del que ya hablaba Bruno Munari en los 60 como ejemplo de buen diseño anónimo. Nosotros queríamos redimensionarla al tamaño de la mano, a la idea de antorcha, al contacto, etc. Queríamos una lámpara que invitara a interactuar, a relacionarse con ella, a cogerla y llevarla de aquí para allá. Que sin ser una lámpara con batería fuese totalmente portátil.

Hook es una lámpara con gancho. En qué sentido?

Primero en el sentido obvio, tiene un gancho... no? todo empieza con el briefing en el que se nos pidió 'una lámpara con gancho' obviamente en referencia a un gancho comercial, metafórico. Y así, casi como una broma desde esa misma reunión decidimos que se llamaría Hook y que su diseño partiría de la idea de gancho y que pudiera colgarse.

Una lámpara debe seducirte. ¿Creéis que Hook es capaz de ello?

No es por ponernos romanticistas dramáticos, la seducción y el enamoramiento son muy divertidos pero todos sabemos que se acaba. Nos gustaría que más que seducir genere complicidad y un tipo de relación de amistad.

Solidaria Ecológica

¿Qué es lo que diferencia del resto de luminarias del mercado?

Podríamos hablar de la multifunción, la versatilidad, etc, pero lo que realmente la diferencia es que es de las primeras luminarias que no contiene PVC en ninguno

de sus componentes, ni cables ni piezas internas. Que su carcasa, la parte más visible, está fabricada con plástico reciclado postconsumo, sin miedo a sus imperfecciones. Y que está íntegramente fabricada en España. Todo eso es un relato silencioso que acompaña al producto durante toda su vida útil.

Hook es ecológica ya que en su fabricación se ha utilizado plástico reciclado y materiales libres de tóxicos.

Además, es un diseño solidario: cada luminaria vendida equivale a alimentar a un niño durante todo un curso escolar gracias a nuestra colaboración con la ONG Mary's Meals.

A modern bedside table with a lamp and a smartphone. The table is made of light-colored wood and has a white rectangular base. On the base, there is a white lamp with two glowing spherical shades, one in front of the other. A smartphone is placed on the right side of the base. The table is positioned next to a bed with white pillows and a patterned blanket. The background is a light blue wall with a wooden horizontal bar.

RECESSED DRAINAGE

EN	ES	FR	ITA
<p>Placing sunken lighting in the ground All sunken lights are ready for installing in the ground or in cement. Always ensure that they are not placed in watercourses or depressions in the ground. Position the mounting box surrounded by the fastening material to ensure that it does not tip or fall over. There must be a layer of gravel below and around the mounting box for draining purposes (see drawing). Correct drainage should allow 5 litres of water to be absorbed within 8 minutes. The glass can reach high temperatures, so contact with people and objects should be avoided. We recommend that the outside of the apparatus be cleaned regularly to stop foreign materials from preventing the dissipation of heat which leads to changes in the components and a loss of watertightness. Follow the installation and assembly instructions and maintenance recommendations very carefully.</p>	<p>Colocación del empotrable en el terreno Todos los empotrables están previstos para una instalación en tierra o en cemento. Evite siempre colocarlo en vaguadas o depresiones del terreno. Coloque la caja de empotrar rodeada de material de sujeción para evitar que se incline o se hunda. Por debajo y alrededor de la caja de empotrar debe existir una capa de grava para drenaje (ver dibujo). Un drenaje correcto debe permitir la absorción de 5 litros de agua en 8 minutos. El cristal puede alcanzar temperaturas elevadas por lo tanto evite el contacto con personas o cosas. Es aconsejable limpiar frecuentemente el exterior del aparato para evitar así que materiales extraños impidan la disipación del calor con la consiguiente alteración de los componentes y pérdida de estanqueidad. Siga detenidamente las instrucciones de instalación y montaje así como las recomendaciones de mantenimiento.</p>	<p>Installation de l'encastrable sur le terrain Tous les luminaires encastrables sont prévus pour une installation dans la terre ou le ciment. Évitez toujours de les installer dans des lignes de creux ou des dépressions du terrain. Installer le boîtier d'encastrement avec ses supports afin d'éviter qu'il ne soit incliné ni trop enfoncé. Sous le boîtier d'encastrement et autour de celui-ci, il doit y avoir une couche de gravier pour le drainage (voir dessin). Un drainage correct doit permettre l'absorption de 5 litres d'eau en 8 minutes. Le verre peut atteindre des températures élevées, évitez par conséquent tout contact avec les personnes ou des objets. Il est conseillé de nettoyer fréquemment l'extérieur de l'appareil, afin d'éviter que des corps étrangers n'empêchent la dissipation de la chaleur puis l'altération des composants et la perte d'étanchéité. Suivez attentivement les instructions d'installation et de montage, ainsi que les recommandations de maintenance.</p>	<p>Collocazione dell'incasso nel terreno Tutti gli incassi sono pensati per la collocazione in terra o cemento. Evitare sempre di installarli in zone umide o depressioni del cemento. Installare sempre l'incasso circondato da materiale d'appoggio, per evitare che si inclini o affondi. Sotto ed intorno all'incasso deve sempre esserci sabbia drenante (disegno). Un drenaggio efficace deve permettere l'assorbimento di 5 litri d'acqua in 8 minuti. Il vetro può raggiungere temperature elevate, per tanto evitare il contatto con persone o cose. Si consiglia di pulire frequentemente l'esterno degli apparati per evitare che corpi estranei impidano la dissipazione del calore con conseguente alterazione dei componenti e perdita delle stagnezza. Seguire attentamente le indicazioni di installazione e montaggio, così come le norme di manutenzione.</p>
<p>Condensation To minimise possible condensation inside the device, turn it on for 1 hour without the protective glass, closing it immediately once this time has elapsed.</p>	<p>Condensación Para minimizar la posible condensación de vapor de agua dentro del aparato, debe hacerse funcionar durante 1 hora sin el cristal de protección, transcurrido ese periodo de tiempo, ciérrelo inmediatamente.</p>	<p>Condensation Pour minimiser les risques de condensation de la vapeur d'eau intérieure de l'appareil doit être exploité pendant une heure sans le verre de protection, après cette période temps, fermer immédiatement.</p>	<p>Condensazione Per evitare la possibile condensazione di vapore acqueo all'interno dell'apparato, deve porsi in funzione durante una ora senza il cristallo di protezione e poi procedere alla chiusura immediatamente.</p>
<p>BEACONS To ensure the proper conservations of beacons we recommend their installation on a plinth, never directly onto the ground or lawn.</p>	<p>BALIZAS Para una correcta conservación de las balizas, recomendamos su aplicación sobre una pilastra a un nivel superior, y nunca sobre tierras o césped.</p>	<p>BALISES Pour un bon maintenance de balises, nous recommandons son application sur un pilier à un niveau supérieur, et jamais sur terre ou sur l'herbe.</p>	<p>PALETTI Per una corretta conservazione dei paletti raccomandiamo la sua applicazione su di una base ad un livello più alto, mai su terra o erba.</p>
<p> In order to validate the warranty the external connection must have always the protection index (IP) with an equal or a superior value of the ip shown on the lamp.</p>	<p> Para poder hacer uso de la garantía es imprescindible que la conexión externa sea de un índice de protección (IP) igual o superior a la luminaria adquirida.</p>	<p> Pour que la garantie soit valable, il est indispensable que la connexion externe soit d'un indice de protection (IP) égal ou supérieur à celui du luminaire acheté.</p>	<p> Per poter usufruire della garanzia é imprescindibile che la connessione esterna sia di un indice di protezione (IP) uguale o superiore a quello indicato sulla lampada acquistata.</p>
<p>Placing sunken lighting in the ground Colocación del empotrable en el terreno Installation de l'encastrable sur le terrain Installazione dell'incasso nel terreno</p>		<p>Minimum drainage measures Medidas mínimas de drenaje Mesures de drainage minimum Misure minime di drenaggio</p>	

STAINLESS STEEL

EN	ES	FR	ITA
<p>Cleaning and maintenance of stainless steel It is advisable to follow the recommendations listed below for the correct maintenance and upkeep of all products manufactured from stainless steel</p> <p>In industrial or coastal areas localized corrosion can be caused by the accumulation of contaminants carried by the air. By using a cloth or duster will insure the elimination of these contaminants. In the case dirt which is more difficult to remove, it is recommended the use of a cleaner which includes phosphoric acid, ensuring that a scrubber or soft nylon brush is used, never use a steel scrubber. It is recommendable to clean stainless steel every 6 to 12 months for average dirt and every 3 months for more severe cases. Especially in the following atmospheric conditions</p> <ul style="list-style-type: none"> - Marine atmospheres. - Atmospheres which contain a lot of industrial contaminants. - Atmospheric and traffic pollution. 	<p>Limpieza y mantenimiento del acero inoxidable Le aconsejamos que siga las siguientes recomendaciones para la conservación y mantenimiento de todos aquellos artículos fabricados en acero inoxidable.</p> <p>En zonas industriales o costeras se pueden producir corrosiones localizadas por acumulaciones de contaminantes llevados por el aire, asegúrese que se eliminan dichos contaminantes utilizando un paño húmedo o una gamuza. En caso de suciedad más difícil le recomendamos que utilice un limpiador que incluya ácido fosfórico siempre con el uso de estropajos o cepillos suaves de nylon, nunca usar estropajos de acero.</p> <p>La frecuencia de limpieza que le recomendamos para una suciedad moderada es de 6-12 meses y de 3 meses cuando es más abundantes. Especialmente en ambientes que recojan las siguientes condiciones:</p> <ul style="list-style-type: none"> - Atmósferas marinas. - Ambientes cargados de contaminantes industriales. - Suciedad atmosférica y del tráfico. 	<p>Nettoyage et entretien de l'acier inoxydable Nous vous conseillons de suivre les suggestions pour la conservation et entretien de tous les articles fabriqués en acier inoxydable.</p> <p>Dans les zones industrielles ou proches au littoral, il peut s'y produire des corrosions localisées par l'accumulation de contaminants apportés par l'air, assurez-vous que ces contaminants puissent s'éliminer avec un torchon humide ou une peau de chamois.</p> <p>En cas de saleté plus difficile, nous vous conseillons d'utiliser un nettoyeur à base d'acide phosphorique, toujours à utiliser avec des tampons à récurer ou des brosses douces en nylon, ne jamais utiliser de tampons à récurer en acier.</p> <p>La fréquence de nettoyage que nous vous conseillons pour une saleté modérée est de 6 à 12 mois et de 3 mois quand celle-ci est plus abondante. Surtout dans les ambiances avec les conditions suivantes:</p> <ul style="list-style-type: none"> - Atmosphères marines. - Ambiances chargées de contaminants industriels. - Saleté atmosphérique et de circulation. 	<p>Pulizia e manutenzione dell' acciaio inossidabile Consigliamo di seguire le raccomandazioni per la conservazione e manutenzione di tutti quei prodotti fabbricati in acciaio inossidabile.</p> <p>In zone industriali o costiere si possono produrre corrosioni localizzate a causa dei contaminanti presenti nell'aria ; suddette corrosioni si possono eliminare utilizzando un panno umido o di camoscio.</p> <p>In caso di sporcizia piu' difficile raccomandiamo l' utilizzo di acido fosforico come prodotto di pulizia e manutenzione (utilizzando spugnette, panni soffici o spazzole di nylon).</p> <p>La frequenza raccomandata é : 6-12 mesi per una sporcizia moderata, 3 mesi per le piu' difficili.</p> <p>Ambienti critici:</p> <ul style="list-style-type: none"> - Atmosfera marina - Ambienti carichi di contaminanti industriali - Atmosfere cittadine con elevato indice di traffico.

Technické informace uvedené v katalogu mohou být modifikovány za účelem zdokonalování vlastností svítidel nebo jejich designu.

Producent Faro Barcelona si vyhrazuje právo konstrukčních změn nabízených modelů bez předcházejícího oznámení a tato skutečnost nemůže být předmětem jakékoliv stížnosti či reklamace.

Podmínky, technické specifikace a ceny produktů uvedené v katalogu jsou platné ke dni vydání katalogu. Producent si vyhrazuje právo konstrukčních změn nabízených modelů, pokud tyto nepovedou k zásadním změnám charakteru výrobků. Informace z tohoto katalogu postrádají platnosti v den vydání katalogu nového.

VŠECHNY CENY JSOU UVEDENY BEZ DPH.

Zboží může být vráceno pouze po předchozím souhlasu od společnosti PAXI, na základě poruchy nebo vady ovšem nikdy na základě poškozeného skla nebo chybějícího dílu. V takových případech nás, prosím, kontaktujte, abychom Vám mohli požadované části svítidel urgentně zaslat. Výměny nebo vrácení zboží v dobrém technickém stavu je nepřijatelné.

Техническата информация, представена в нашият каталог, може да бъде променяна с цел да подобри представянето или дизайна на продуктите.

Фаро Барселона си запазва правото да отменя или променя всеки модел без предварително осведомяване и без това да се счита причина за оплаквания.

Условията, техническите характеристики и цените на продуктите показани в този каталог са ефективни към датата на отпечатването на каталога, с изключение на грешки при отпечатване и са обект на възможни промени.

Цените в каталога са публичните цени.

ЦЕНИТЕ НЕ ВКЛЮЧВАТ ДДС.

Връщане на закупена стока ще да бъдат приета единствено след писмено осведомяване на ЛОРЕФАР на основание дефекти и в никакъв случай на основание счулено стъкло или липсващи части. В такива случаи моля свържете се с нас, за да ви изпратим липсващите части по спешност.

Размяна или връщане на стока в добро състояние няма да бъде извършвана. В случай на спешно приемане от ЛОРЕФАР 20 % такса ще бъде наложена за приемане и проверка, за обезценяване и класификация на продуктите.

PL

Informacje techniczne wyszczególnione w naszym katalogu mogą być modyfikowane w celu poprawienia właściwości lub wzornictwa produktów.

Faro Barcelona ma prawo do anulowania i modyfikowania każdego z modeli bez uprzedniego informowania i nie przyjmuje skarg z tego tytułu. Warunki, opis techniczny oraz ceny artykułów, które pojawiają się w katalogu są aktualne do czasu przedruku katalogu za wyjątkiem pomyłek w druku, które podlegają ewentualnej zmianie. Ceny w katalogu są cenami publicznymi.

CENY NIE ZAWIERAJĄ STAWKI VAT.

Ewentualne zwroty mogą być zaakceptowane po uprzedniej zgodzie przez Lorefar na podstawie stwierdzenia, że są wadliwe, nigdy nie przyjmowane są zwroty artykułów, z powodu stłuczenia szkła czy brakujących części, w tym przypadku prosimy o kontakt w celu wysłania potrzebnych części w trybie natychmiastowym.

Wymiany lub zwroty artykułów w dobrym stanie nie będą zaakceptowane. W przypadku wyraźnej akceptacji przez Lorefar, 20% opłaty może być poniesione na otrzymanie i sprawdzenie, w celu sklasyfikowania uszkodzenia artykułu.

OUR COMMITMENT

EN	ES	FR	ITA
<p>Faro Barcelona Technical Laboratory Faro Barcelona has extended the capacity of its Quality Control Department by equipping its laboratory with machinery that can conduct the following tests:</p> <ul style="list-style-type: none"> - IP Tests - Incandescent thread. - Electric shocks. - Thermal and mechanical resistance. - Impacts. - Consumption and power factors. <p>Thanks to these advances, Faro Barcelona has raised the bar regarding the thoroughness of its tests and ensures that European regulations and standards are complied with fully.</p> <p>Faro collaborates on improvements to the environment With its commitment to efficient light bulbs and its contribution to energy saving and the campaign against global warming. In Faro catalogues, next to the standard-use light bulb given for each item, you will see the recommended bulb, highlighted by this symbol: [LED ref.]</p>	<p>Laboratorio técnico propio de faro Barcelona Faro Barcelona ha ampliado la capacidad de su Departamento de Control de Calidad, dotando su laboratorio de una maquinaria capaz de hacer los siguientes ensayos:</p> <ul style="list-style-type: none"> - Pruebas de IP - Hilo incandescente. - Choques eléctricos. - Resistencia térmica y mecánica. - Choques de impacto. - Consumos y factores de potencia. <p>Gracias a estos avances, Faro Barcelona eleva el nivel de rigurosidad en sus ensayos y garantiza el estricto cumplimiento de las normativas y estándares europeos.</p> <p>Faro colabora en la mejora del medio ambiente Apostando por las bombillas eficientes y contribuyendo con el ahorro energético y la lucha contra el calentamiento global. En los catálogos Faro podrá encontrar junto a la bombilla de uso standard de cada artículo cual es la bombilla que recomendamos y lo diferenciamos con este símbolo: [LED ref.]</p>	<p>Laboratoire technique appartenant à faro Barcelona Faro Barcelona a élargi la capacité de son Département de contrôle qualité, en dotant son laboratoire de machines capables de procéder aux essais suivants:</p> <ul style="list-style-type: none"> - Essais d'IP - Fil incandescent. - Chocs électriques. - Résistance thermique et mécanique. - Chocs d'impact. - Consommations et facteurs de puissance. <p>Grâce à ces avancées, Faro Barcelona élève le niveau de rigueur de ses essais et garantit le strict respect des réglementations et normes européennes.</p> <p>Faro participe à l'amélioration de l'environnement En misant sur des ampoules efficaces, en contribuant aux économies d'énergie et en participant à la lutte contre le réchauffement de la planète. Dans les catalogues Faro, vous trouverez, à côté de l'ampoule standard utilisée pour chaque article, l'ampoule recommandée et identifiée par ce symbole: [LED réf.]</p>	<p>Laboratorio tecnico proprio di faro Barcelona Faro Barcellona ha ampliato la capacità del suo Dipartimento di Controllo della Qualità, dotando il suo laboratorio di macchinari in grado di realizzare i seguenti test:</p> <ul style="list-style-type: none"> - Prove di IP - Filo incandescente. - Scariche elettriche. - Resistenza termica e meccanica. - Test di impatto. - Consumi e fattori di potenza. <p>Grazie a questi progressi, Faro Barcelona alza il livello di rigosità nei suoi test e garantisce il rigido rispetto delle normative e degli standard europei.</p> <p>Faro collabora al miglioramento dell'ambiente scommettendo sulle lampadine efficienti e contribuendo al risparmio energetico e alla lotta contro il riscaldamento globale. Nei cataloghi Faro potrete trovare, assieme alla lampadina d'uso standard di ogni articolo, la lampadina di basso consumo consigliata e che si distingue con questo simbolo: [LED rif.]</p>
